> **Work authorisation:** Married to an EU (Polish) citizen; eligible for a Swiss permit under the EU–Swiss Free Movement of Persons Agreement. No sponsorship required.

PROFESSIONAL SUMMARY

Web developer who designs, builds and maintains responsive websites and online stores with **Next.js, React and TypeScript**, using AI-assisted development workflows (Claude, OpenAI Codex, Superdesign). Backed by over two years of experience as a Database Administrator in a software company, bringing a solid understanding of SQL, data and troubleshooting to web projects. Experienced in working directly with clients from requirements to delivery. Motivated to join a Swiss web or digital team and keep growing as a developer.

PROFESSIONAL EXPERIENCE

AI-Assisted Web Developer & Website Manager — Independent / Freelance

Remote · 2024 – Present

- Design, build and launch responsive websites and online stores for clients, from requirements gathering to go-live.
- Use AI-assisted workflows (**Claude, Claude Code, OpenAI Codex**) to generate, refactor and debug code, and **Superdesign** for UI design and rapid prototyping.
- Built and run **Sundex Vitamin**, a Turkish supplement e-commerce store selling **thousands of products per month**: custom **Next.js** storefront and self-written **admin panel**.
- Handle domains, hosting, SSL, deployment, backups and ongoing maintenance; manage clients from requirements to handover.

Database Administrator — FAF Global

Warsaw, Poland · Sep 2023 – Oct 2025

- Administered and supported **Microsoft SQL Server** databases behind business applications; wrote SQL queries to retrieve, validate and correct data.
- Investigated application errors and data inconsistencies, reproduced bugs and documented findings for the development team.
- Monitored jobs and backups, managed user access and supported internal teams with data requests and Excel reports.

PROJECTS

Sundex Vitamin – Live E-commerce Store — www.sundexvitamin.com
Next.js storefront + custom **admin panel**, built and run solo: catalogue, cart, card/bank checkout, campaigns, blog.

Alpenmarkt – Swiss E-commerce Store — yigitdikmenq.github.io/alpenmarkt-store
React, TypeScript, Vite: cart, Swiss checkout (CHF, VAT), EN/DE; **31 unit tests** (Vitest), CI/CD via GitHub Actions.

SQL Reporting Toolkit — github.com/yigitdikmenq/sql-reporting-toolkit
T-SQL / SQL Server 2022: management reports, data-validation checks, user & role management, backup and index-maintenance scripts.
